

SEO

SEO Content writing challenge and Google certification

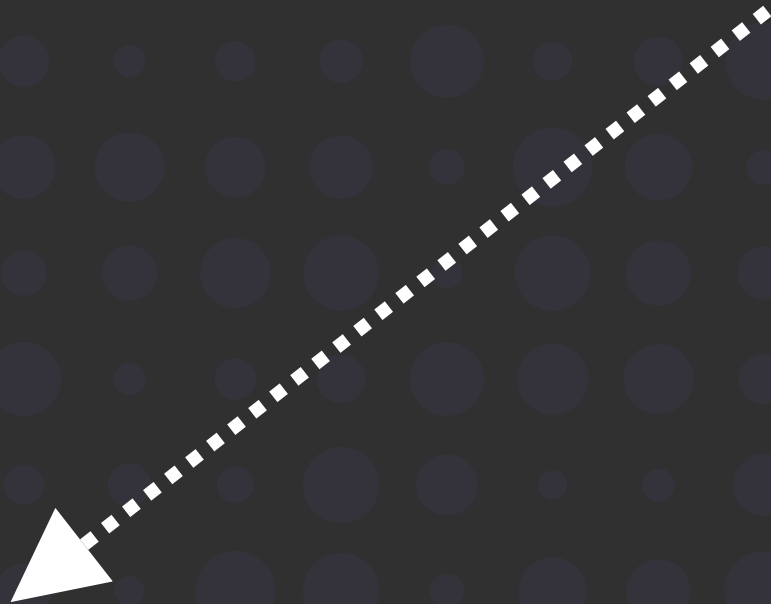

Challenge yourself to write SEO content

Using the information in our class at BigREIA.com, start your Keyword research. Apply these to your marketing goals, keeping track of high search volume, low competition results.

Formulate your outline

Begin with your outline for each blog post. Simply begin writing and use your Keyword research as embedded Keywords in your writing. Remember; squeeze in as many as you can to maximize SEO results.

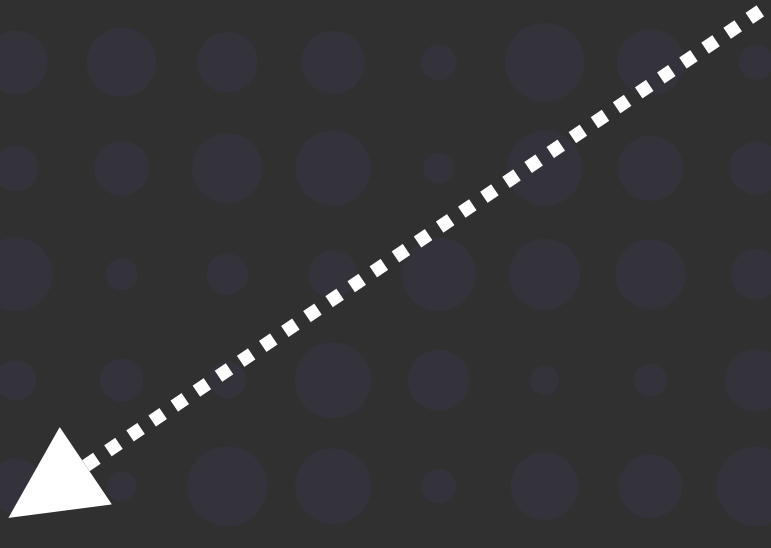

Get Google Certified

Once you've begun to see how SEO content writing works and you're applying it to writing epic blog posts, get Google certified to develop the full skillset of using Google Ads correctly.

Watch you efforts take off

You've written some out of this world SEO content with embedded Keywords and become Google Certified for FEE to make the most of your Google Ads campaigns. Now, your blog posts should begin to get heavier SEO results.

The Payoff

With either new leads coming in or simple replies to your blog posts, you should be expanding your target audience on a daily basis. This is where beautiful conversations happen and the final step in making the most of your conversions, all from SEO content writing and organic SEO results.

It's really that easy

Anyone can do this, and it's all for free. The single most way to develop organic SEO hits and get Google Certified, laid out simply for you by BigREIA.com
